

DQUARZO

DQUARZO

! HELLO !

Thank you for taking the time to
look at our products.

We sincerely hope they are what you're
looking for and that we become a small
part of your living environment.

Colors, sizes, textures, quality....
cleanliness, durability....

Let's take a look!.....

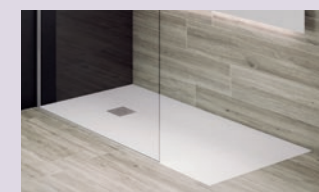

Practika has partnered with a trusted sister factory that specialises in the production of artificial stone shower trays and panels. With over 6000 m2 of dedicated facilities and a highly skilled team, the factory is committed to delivering high quality and excellence in every product.

All items are manufactured in compliance with current regulations to ensure optimal installation and performance, tailored to meet the needs of both national and international clients

Design your shower tray

- **STEP 1:**

Chose the model that you prefer

- **STEP 2:**

Choose the right color for your bathroom, always within our RAL or NCS color chart.

- **STEP 3:**

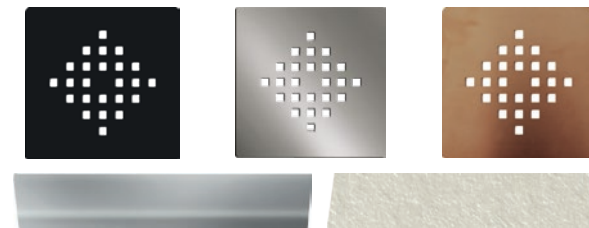

Measure the dimensions you need.
If you need a custom cut, we can do it in the Quarzo model.

With the Quarzo model, we offer custom cuts in length, width, and even recesses to accommodate columns.

- **STEP 4:**

Choose the type of drain cover according to your bathroom design

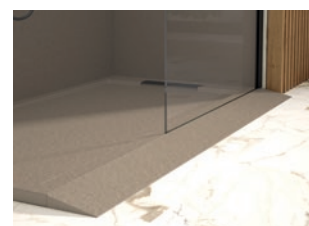

- **STEP 5:**

You can use Wall Panels to cover and match the texture and color of your walls with your shower tray.

- **STEP 6:**

Optionally, use a ramp if needed
